

PATH (Partnership for Advancing Technology in Housing) is a private/public effort to develop, demonstrate, and gain widespread market acceptance for the “Next Generation” of American housing. Through the use of new or innovative technologies, the goal of PATH is to improve quality, durability, environmental efficiency, and affordability of tomorrow’s homes. PATH is managed and supported by the U.S. Department of Housing and Urban Development (HUD). In addition, other federal agencies that engage in housing research and technology development are PATH Partners, including the Departments of Energy, Commerce, and Agriculture, as well as the Environmental Protection Agency and the Federal Emergency

The Partnership for Advancing Technology in Housing (PATH) is pleased to present the
Advanced Panelized Construction Roadmap

ROADMAP

OVERVIEW

The participants in this roadmapping process identified three strategies for achieving the vision of the *Advanced Panelized Construction Roadmap*. They are as follows:

1. Develop Advanced Building Panel Design
